

Karma Sutra

Cracking The Karmic Code

The author spent the first half of his life as a non believer... During his early years he contracted arthritis and suffered it for 10 years until he met his spiritual teacher who cured him in 60 seconds flat! That minute changed his life... The second half of his life was spent in philosophy, philanthropy and spiritual practice. His learnings which are the secrets of the spiritual path, have been a closely guarded secret up until this book. Now, he shares his insights with those fortunate enough to receive them.

We have all thought of questions like does karma really work? How does it work? If it does work then how do some people doing wrong deeds do better than the ones doing good deeds? This book answers all these questions.
